Website Project

Topic: Promotion Ads

Lecturer : Lypengleang Seang
Course : Dynamic Web App
Year : III
Semester : II
Academic Year: 2019 – 2020

DATE : DD/MM/YYYY

Date : 20 / 07 / 2020

By Group I

Mr. Hing Kosal

Ms. Kong Sreya

Mr. Chhorn SokTheng

Dynamic Web Development Report

Week I

What is the project about?

- We advertise product promotions for companies and seller to customers through our website.

Why we choose this topic?

- We choose this topic for 3 main reasons
 - We focusing on developing an alternative for people to get all promotions productions from different companies and seller from the market in to one place so people easy to find and buy better.
 - Help seller to published there promotions productions to the world so their target customer will easy to see.
 - In future it can grow to become online market for people over the world can sell and buy many products easy in one place.

What is our goal of making this happen?

Our Goal:

This website provides sellers and customers the best experience to post their promotion products to customer and all the promotion ads will post on the website and give many different promotions products so all people over the world will see. First, seller need to register in our system to become our user then they can post their promotion products in different categories to the website. Second, all posts will display in website in different categories and with detail of product and company with sell that product such ask product old price, discount(%), company name, contact, location...etc. We start this process in Cambodia the first location then push to publish over the world. Next Goal when we get a lot of our client and this website popular for all people we will develop this website not only promotions ads but we

can sell and buy it will make more easy life. Final goal we want to see this website is become a big online market or people all over the world.

How my team build this platform?

Basically, we scratch the user interface and we decide to have 2 different platform Frontend for customer to see all promotions and Backend for seller (our client) where they can post all their promotions products. We have 3 members so we give different job for everyone:

Responsive Part of Members

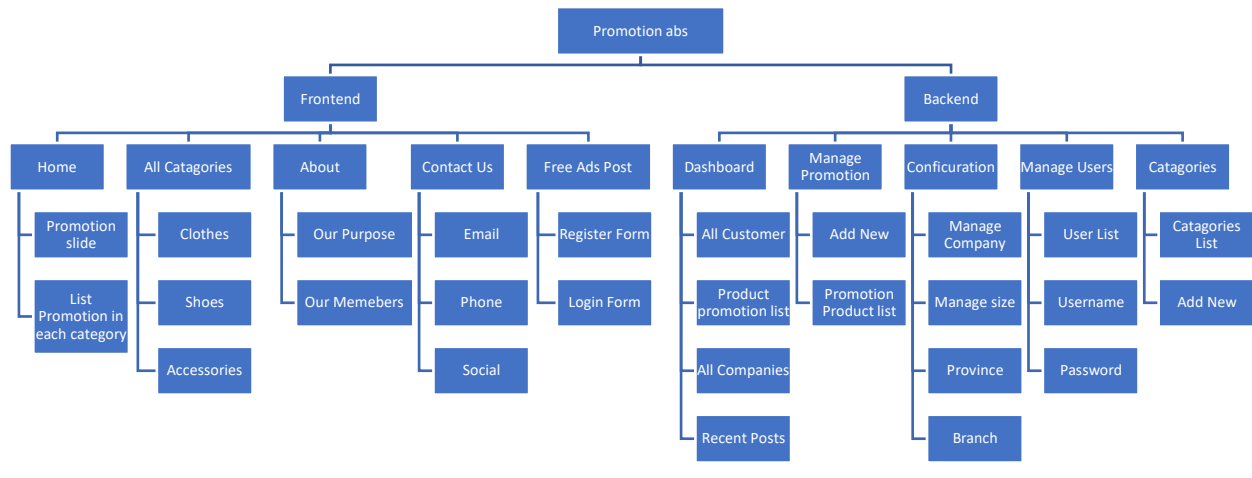

- **Hing Kosal:** Team Leader & Full stack
- **Chhorn Soktheng:** Frontend interface + Login & Register
- **Kong Sreya:** Backend interface
- All members have to response all document

First, we built both static of frontend and backend by using other free template on internet and using HTML, CSS, JAVASCRIPT, and BOOTSCRAP to edit it by keep template or form we want and add our own template, then delete what we don't want. Third, we also got support from W3school web, YouTube and especially plenty of method and tool from our instructor. Last but not least, we use PHP to make our website to dynamic like input data into database and call data back and using MYSQL as a database management system.

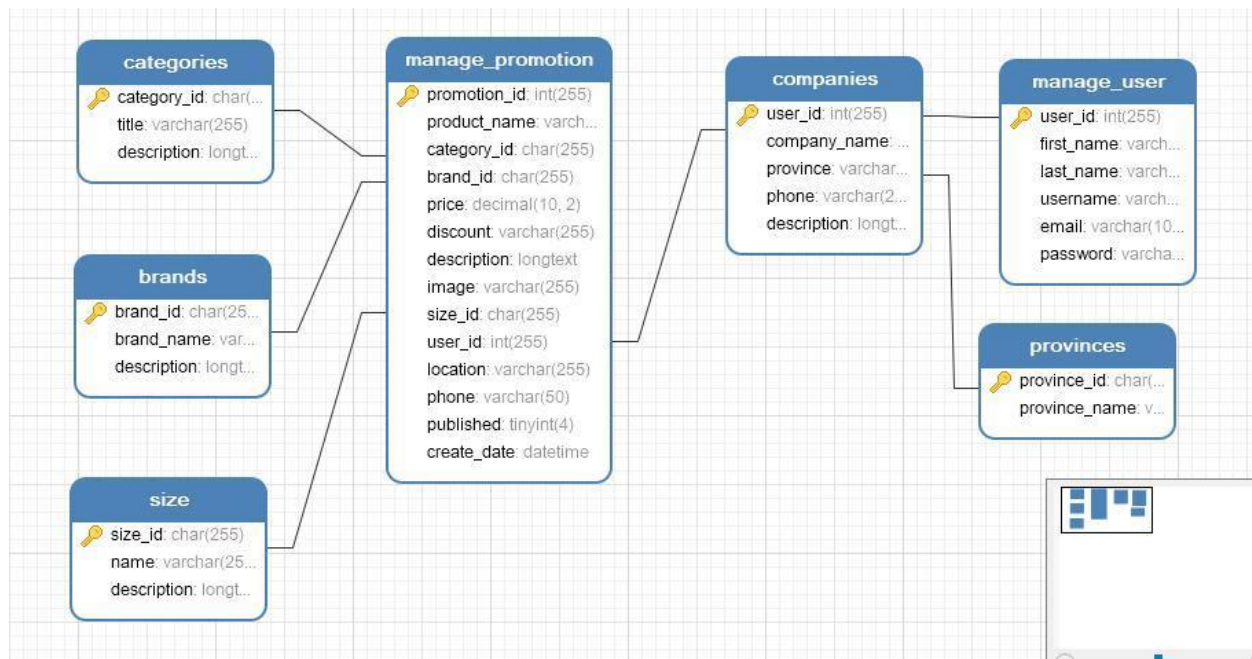

Week II

We will update our static web to become a dynamic web by using PHP connect with MYSQL and update more standard interface.

Register Form

Where we can register new user account use for login to backend system management

The image shows a user registration form with a light blue border. At the top center is a red hexagonal logo with a white 'M'. Below the logo, the text 'Please Sign Up' is centered. The form contains four input fields: 'First Name' and 'Last Name' (each with a person icon), 'Username' (with a person icon), and 'Email Address' (with an envelope icon). Below these is a 'Password' field with a key icon. At the bottom left is a checkbox labeled 'I Agree'. To its right is a line of text: 'By clicking Register, you agree to the [Terms and Conditions](#) set out by this site, including our Cookie Use.' At the bottom are two buttons: a blue 'Register' button with a person icon and a red 'Login' button with a lock icon.

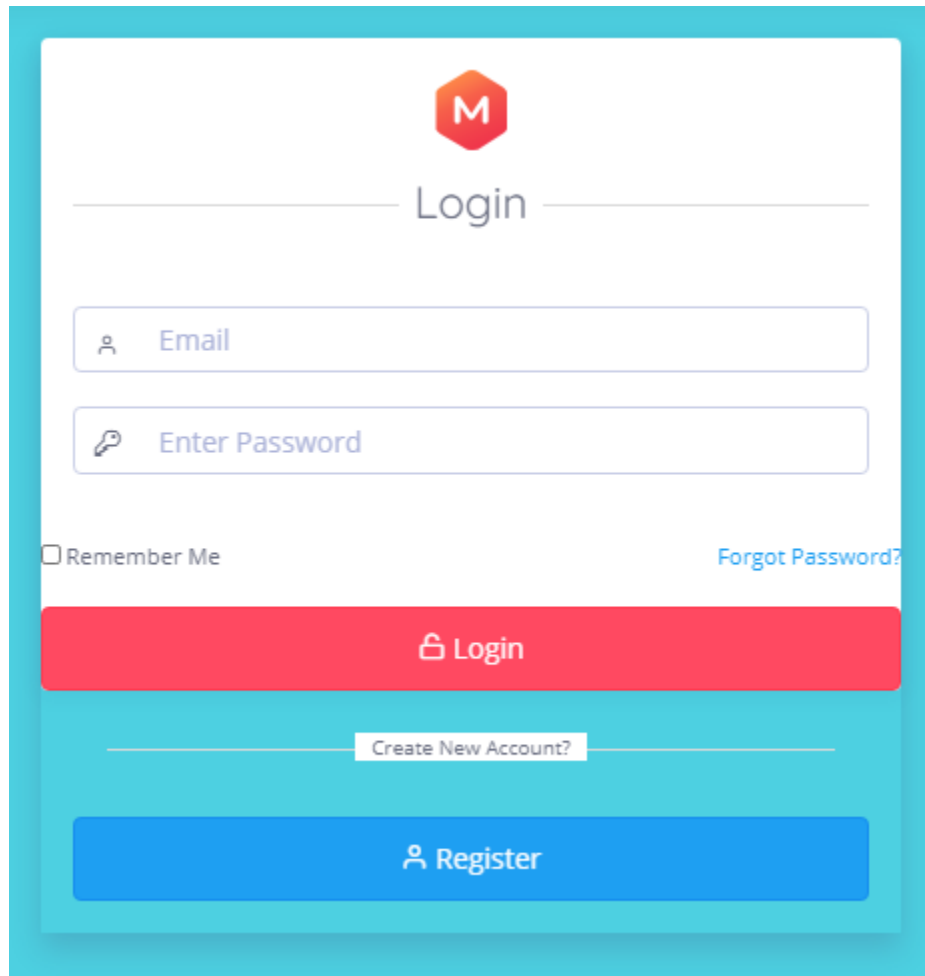

Please Sign Up

☐ I Agree

By clicking Register, you agree to the [Terms and Conditions](#) set out by this site, including our Cookie Use.

Login Form

You need to have Email and password from user account that already register to login into backend then you can post your promotion ads.

The image shows a login form with a teal border. At the top center is a red hexagonal logo with a white 'M'. Below the logo is the word 'Login' in a large, grey font, flanked by horizontal lines. There are two input fields: the first is labeled 'Email' with a person icon, and the second is labeled 'Enter Password' with a key icon. Below the 'Email' field is a checkbox labeled 'Remember Me'. To the right of the 'Enter Password' field is a link labeled 'Forgot Password?'. Below these fields is a large red button with a white key icon and the text 'Login'. Below the red button is a teal button with a white person icon and the text 'Register'. Above the 'Register' button is a link labeled 'Create New Account?'.
